TROOPS KEEP ORDER IN CHICAGO

All Quiet Among Whites and Blacks--Police of England Fail in Strike Order--Government Declares Strikers Positions Vacant--"The Lord Leads Ex-Kaiser."

(By Associated Press)

Chicago, Aug. 1.—With state troops in full control in the black belt of Chicago, the rioting that terrorized that section for four nights, was pronounced by State and city officials to be at an end today. Deaths since the fight at the 29th Street Bathing Beach on Sunday numbered 18 negroes and 14 whites.

London, Aug. 1.—A police strike went in effect in London and the English provinces today as a protest against pending legislation effecting police organizations. While labor circles declared that 55,000 policemen and prison officials throughout the country had left their duty Edward Short, the home secretary, told the House of Commons that the strike had been a failure both in London and in the provinces. He conceded that the strike order had been obeyed by about 800 policemen out of 1700 in Liverpool. "Policemen who are unable to give proper explanation of their absence from duty" he continued, "will cease immediately to be policemen. Regarding Liverpool I told the chief constable that I would fully support any move he considered necessary." The Daily Herald, a labor organ, declares that the whole London force responded to the call. Other papers say the call was generally ignored and Gen. MacReady, chief commissioner of police, said that less than 250 men had struck, and that these would be dismissed and never reinstated. An official at one of the principal west end police stations said there were less than 5 percent of absentees from the morning roll call and that conditions were normal throughout London. At a meeting of the striking policemen here today, Chairman Marston, of the Union, read the following telegram from the Liverpool branch: "Liverpool out solid stripped docks at midnight. Fire brigade as well." Strike leaders asserted that by 8.00 tonight there would not be a policeman on duty in London.

Berlin, Aug. 1.—The former German Empress in a letter to the vicar of Christ church says, "The Kaiser is bearing his burden but the Lord will lead him out of the dark valley." She adds that he is well except for a bad cold and that she also is well.

Paris, July 30.—Although the question of Thrace was again before the Supreme Council today there seemed little prospect of an immediate settlement regarding the boundaries of Bulgaria in this region because of uncertainty as to the disposition of the mandates for the government of territories in the near East. The reports of the commission entrusted with the delimitation of the Bulgarian boundaries are conditioned upon what disposition is to be made of Turkey and consequently the general disposition has to await decision on this point which was regarded as resting chiefly with the attitude of the American public towards the acceptance of the United States of a mandate in Asia Minor. The proposed withdrawal of British troops from Asiatic Turkey renders the unsettled conditions recently reported there more alarming. In the opinion of members of the Peace Conference they regard the danger of serious military movements and general anarchy in Asia Minor as not at all remote and as constituting probably the most disquieting situation in the present world crisis. Virtually all other controversies in the Peace Conference have been overshadowed for the moment by the Turkish situation as many of the delegates say that neglect of it indefinitely will mean that Turkey may again overrun the Balkans and continue as a trouble maker in the near east.

EFFORT TO OBTAIN VOTE ON SUFFRAGE

(By Associated Press)

Boston, Aug. 1.—An effort to obtain a popular vote in this state on woman suffrage was begun by opponents of votes for women today. The Supreme Court was asked in a petition brought by John A. Sullivan and others to issue a writ to compel the Secretary of State to furnish the blanks necessary for signature. The last Legislature ratified the woman suffrage amendment to the Federal constitution.

NO RELIEF YET FROM HIGH COST

(By Associated Press)

Washington, Aug. 1.—No relief from present high prices is forecasted in the Federal Reserve Board's monthly review of business conditions issued today which notes that July saw increases in many lines. "In general" the Review said, "there is a disposition to accept present price levence and to expect a continuation of the present level for some time to come."

PICKED UP CREW OF 58 FROM SUNKEN STR.

New York, Aug. 1.—The S. S. Abangarez owned by the United Fruit Company arrived here today with 58 members of the crew of the British steamer Clan Gordon, which capsized at sea Wednesday, 140 miles southeast of Cape Hatteras, with the loss of three men, one of whom was the wireless operator.

COMMITTEE TO INVESTIGATE THE H. C. L.

(By Associated Press)

Washington, Aug. 1.—A committee to investigate the high cost of living and report to President Wilson was appointed at the conference yesterday of Cabinet officers at the office of Attorney General Palmer. This was announced today at the White House.

The committee will compile suggestions thus far made and report to the Cabinet Monday when further steps will be taken. One suggestion made Mr. Palmer said, was that the Government sell this year's wheat crop at the market price to be determined by the law of supply and demand and make up the guarantee to the farmer out of the billion dollar fund appropriated by Congress.

MORE TREATY PAPERS HANDED TO SENATE

Washington, Aug. 1.—The protocol to the German peace treaty defining extensions of the treaty in memorandums exchanged between the German and Allied plenepotentiaries was laid before the Senate today by Vice President Marshall. The documents were transmitted yesterday by President Wilson but too late for submission before today. The protocol was accompanied by explanatory letters from President Wilson and Secretary Lansing. The protocol and the correspondence were referred to the Foreign Relations Committee.

NEWPORT YOUTH SHOOTS HIS PAL

St. Johnsbury, Vt., Aug. 1.—Roy Charland of Newport, 18, died Thursday from the effects of a bullet fired by his pal, Earl Fitzpatrick, from a supposedly empty revolver.

With a third boy, they were playing cards Wednesday night. Charland was winning. Jokingly, Fitzpatrick took a revolver belonging to Maurice Willey of Newport, in whose room they were playing, and pointed it at Charland saying, "If you get many hands like that there'll be some shooting." He pulled the trigger, supposing the chamber was empty. The bullet entered the boy's face under the eye and lodged in the brain.

COMPLETE NEW COMMERCIAL TREATY

(By Associated Press)

London, Aug. 1.—The British Foreign Office has completed negotiations with the United States according to the Evening News for a new commercial treaty between the United States and the United Kingdom. The text will be laid before Parliament soon it was said.

TREATY OF "BIG FIVE" POWERS PRESENTED

(By Associated Press)

Washington, Aug. 1.—A copy of a treaty between the "Big Five" powers and Poland, said to have been signed at Versailles on June 28th was put into the Senate record today by Chairman Lodge of the Foreign Relations Committee, who said it had been submitted to the British Parliament two weeks ago. The text of the agreement between President Wilson and the representatives of the other big powers for governing the Rhine district also was presented by Senator Lodge who said he had received a copy privately after the document had been presented to the British Parliament.

MANCHESTER UNDERTAKER KILLED

(By Associated Press)

Hooksett, N. H., Aug. 1.—Lewis B. Goodwin, an undertaker of Manchester, was killed and Edward Hayes, also of Manchester, and Augustus Farnsworth of Hyde Park, Mass., were seriously injured here early today when an automobile overturned. The accident occurred near Martin's corner.

TO SETTLE CAR STRIKE IN CHICAGO

(By Associated Press)

Chicago, Aug. 1.—Surface and elevated street car men balloted today on a proposal to rescind the strike vote taken at a mass meeting of 6000 of their 16,000 Union membership and to accept a compromise wage scale agreed upon by Union and Company heads last Monday. Leaders of the Unions were confident, the referendum would result in a resumption of street car service tomorrow morning.

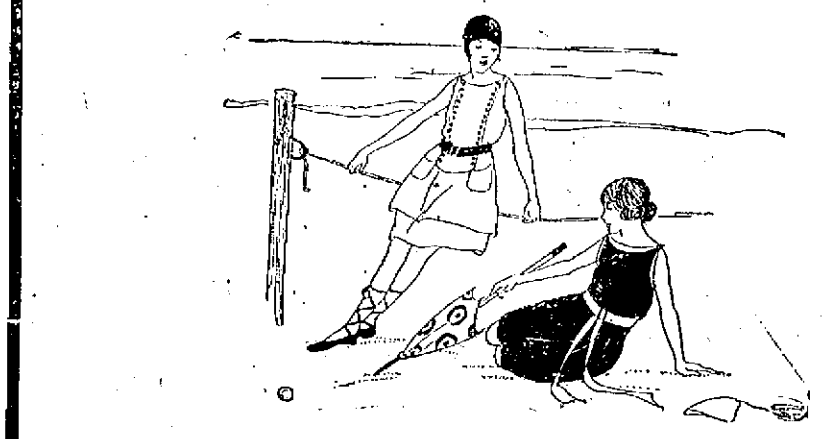

SUCCESS FOR BOLSHEVIKI REPORTED

(By Associated Press)

London, Aug. 1.—Successes for the Bolsheviki in the Nenga sector of the Archangel front are reported in a Soviet statement sent by wireless from Moscow. It declares that the Bolsheviki have advanced 14 miles aided by a mutiny among the allied troops.

TO FIND CAUSE OF SINKING OF SUBMARINE

New London, Conn., July 30—A naval court of inquiry will be appointed by Captain Dufress, U. S. N. to investigate the sinking of the submarine G-2 which went down off Pleasure Beach today with the loss of three lives. Six others were rescued by the coast guard ship Ascutney which was accompanying the G-2 while she was making test in depth charges.

KITTERY POINT

Kittery Point, Aug. 1.—Rain held off for the annual reunion of the Pepperrell Association just long enough to favor the members with glorious weather yesterday. The Point was at its best and the large and happy company of men and women who gathered at the old Bray Mansion in the morning and remained until late in the afternoon, participated in one of the most enjoyable occasions the association has ever celebrated. In the absence of Ralph S. Bartlett of Portsmouth, president of the organization who is in Sweden, the Rev. Ralph F. Lowe of Rumford, Me., presided, and delivered an address of welcome which delighted everyone present.

Other officers who contributed to the marked success of the reunion were Miss Marjorie G. Fernald, of Elliot, secretary and treasurer, and a reunion committee consisting of Mrs Horace Mitchell, Maude E. Sanborn Frank Lawry, Harriet M. Clark, and Samuel F. Paul. Among those present from out of town were: Mrs. J. D Dudley of South Berwick, aged 91 years, who has attended every meeting of the Association but one; Harriet M. Clark, Mrs. E. D. Jacques South Berwick; Caroline C. Pickard Columbia, Mo.; Mabel L. Jenkins, Wellesley; Elizabeth M. Brooks, Sandy Spring, Md.; Ida M. Davis, Rochester; Mrs. Edna M. Hearn, Derry, Me.; Louisa Poye, Elizabeth M. Bartlett Mrs. W. L. Fernald, Marjorie G. Fernald, Winnifred W. Fernald, Mrs. H I. Durgin, Mrs. M. A. Coleman of Elliot; Oliver L. PRINTERS SCARCE IN THIS COUNTRY

New York, July 30.—Information that there is a shortage of men in the printing and publishing industries and that there are exceptionally good opportunities for the employment of discharged soldiers and sailors in that field has been received at the office here of Colonel Arthur Woods, Assistant Secretary of War. The announcement adds that there is room in the printing industry not only for apprentices but for men of past experience and considerable education.

Denver and other places in Colorado are said to be short of printers and, according to the announcement, similar reports have been received from Iowa and from other states all over the country.

PEPPERRELL COVE

Pepperrell Cove, July 31.—It is Pepperrell Day today at Pepperrell Cove. They meet and cousin together.

The new iron ship Kisnop had her trial trip Tuesday. She is going to Boston to load. Why not load her here? Her cargo would have to be brought to Boston. Why not bring the cargo to Portsmouth?

The ever present motor boat reminds us oil is king—the most important commodity in the world and the world's most valuable asset. Gasoline is a product of petroleum. No mechanism can run without the latter. In fact the great world war could not have been won without oil. The allies floated to victory on a wave of oil—in the air, on the earth and under the water.

A battleship passed out to sea and the ship Kisnop returned to port on Wednesday.

Rev. Mr. Harnsburger and wife spent Tuesday at Tavistock. He delightfully entertained us by his description of his eleven thousand mile trip in California and Alaska. We discussed most everything. The condition of the world reminds us of the saying of Moore: "This world is all a fleeting show, there's nothing sure but Heaven." And nothing sure on earth but death and taxes and they are going higher all the time. We agreed that if there were merit in our League of Nations it would stand washing before its adoption as well as after, and some of the candidates named for president would never run for that office in 1920. If nominated they would surely walk.

We are for William D. Swarts for governor in 1920 because he belongs to the Atlantic Deeper Waterways Association. Birds of a feather flock together you know.

We mourn the loss of a member of that Association in the death of L. S. Shattuck. He was also chairman of the Portsmouth Harbor Committee of the New Hampshire Manufacturers' Association and had great faith in the possibilities of making our harbor a world port.

The yacht Alberta will go to Manhagan Island on her next trip, the mate, Miss Hope Adams, says, because they like to visit islands. They went to the Shoals recently.

BUY YOUR COAL NOW

Harry A. Garfield, U. S. Fuel Administrator, says:

"Buy now—in August or the Autumn will be too late. A big coal shortage is coming. Thousands of miners are going back to Europe. Coal production has fallen off considerably and a shortage of many million tons looks probable. My advice to consumers is to buy NOW while they can get a selection and DELIVERY.

"I feel bound to say that, as I see the situation, we are likely to experience a coal famine in the Fall."

Walker D. Hines, Director Gen. of U. S. Railroad Administration, says:

"Unless the consumer buys his coal this summer he is going to find it difficult to get it this Fall and Winter. I predict a shortage of cars because of resumption of business in general, with which the coal industry must share transportation facilities. There are plenty of cars today and consumers of coal are urged to use them while they can get them."

Why You Should Buy Coal Now

The price of coal is 75 per cent determined by wages. The wage agreement at the mines continues until April 1, 1920. The Fuel Administration reports that 35 per cent of the mines cannot make any money at the present mine prices. In view of this, how can coal be cheaper this year?

TROOPS QUELL RACE RIOTS IN CHICAGO

Chicago, July 31—Race war terror and bloodshed have abated some, but violence continues to occur notwithstanding the 6500 state trops and the thousands of police officers who are on duty in this city and especially in the south side.

Three negroes died today as the result of bullet wounds increasing the total to 32 of which 18 were negroes. Only one of the three was shot today, but a dozen or more of both races were wounded, but they were comparatively slight. In the downtown district the mob attacked a negro on his way home from work and he was rescued by the police and sent home in the patrol wagon under guard.

There was no shooting by the troops last night and the conditions are better. The negroes are quite calm by presence of the troops, and at the same time the troops had a very fine effect upon the most spirit of the whites.

Food supplies were rushed to the negro quarter today by the Wholesale Grocers association, as there was shortage reported. The zone is closed to every white person except police and soldiers and even the food automobiles were stopped at the deadline and negro driver continued with the supplies under guard. The poorer negroes were in want, as they were without food and money. Today was pay day in the stockyard, but they did not dare go for their money.

RHODE ISLAND CAR MEN IGNORE COURT OFFER

(By Associated Press)

Providence, R. I., July 31—Striking carmen voted today to reject the offer of the court for arbitration. The strikers were wildly enthusiastic and voted not to return to work until they had been graned 50 cents an hour and an eight-hour day. Furthermore that in case that satisfetory rbitration is secured, hey will not return until after the award. This dispels all chances of the courts settling the strike and there is only one thing left, that is to run the road with what ever help they may secure.

SELL ONE HUNDRED STEAMSHIPS

Washington, July 31—One hundred steamships built during the war on the Great Lakes, have been sold to the Anderson Steamship company of New York for about $30,000,000. This is the largest ship deal ever made. It is understood that the ships will eventually find their way into the ownership of the French and Italians.

N. H. STAR TO WED

Sanford, Me., July 31—Paul D. Hurd, 21, son of a wealthy business man of Sanford, Me., and who was a diamond star at Brewster and Hebron academies and New Hampshire State College, is to marry a girl whom his parents do not even know, although she lives in the same town.

According to intentions of marriage filed at City Hall yesterday, the prospective bride is Esther M. Laflamme, 20, said to be the daughter of Mr. and Mrs. Arthur Laflamme of River street Sanford. Her father is said to be fireman in a Sanford mill.

Hurd left his studies at New Hampshire State College last spring and some time later came to Boston, where he entered the employ of a State street trust company as a stock salesman.

"I know nothing of my son taking out marriage intentions, nor did I entertain the remotest suspicion that he intended to marry," said Luther A. Hurd of Sanford, father of the groom-to-be, speaking over the telephnoe today. "He is certainly at liberty to do as he chooses, however, for the lad is of age. No, I do not know Miss Laflamme."

To-day Telephone Properties are Returned

After a year of Federal control, the telephone property, which makes up the Bell Telephone System, is today returned to its owners by the United States Government.

While the property has been properly maintained, it is not the same property which the Government took over on August 1, 1918. It is not as adequate for its job; that it is not, is in no way the fault of Federal control, which was eminently fair. It is due to causes for which neither the Government nor the companies are to blame.

A year ago today we were at war. Labor and materials needed for both telephone operation and construction were turned to military uses. Some materials were so vital to the carrying on of the war that even the work of providing telephone facilities for the Government was retarded, and no part of them could be spared for commercial telephone purposes.

No less vital was the Government need for those skilled to create, maintain and operate the vast intercommunication systems necessary in modern warfare and in the conduct of the vastly increased Government services.

Thousands of telephone men were already at the battle front. Thousands more were under arms, and still telephone experts and skilled operators went into the service of the Government and contributory industries by the tens of thousands.

The reserves of plant and equipment were drawn upon until they were entirely used up, and the experienced staff was gradually depleted.

During the year came victory and the armistice; and instantly the business world sprang into intense activity. The demands for telephone service passed all former records.

To replace the exhausted reserves which had been carried for just such purposes, to meet this unprecedented emergency, there began a rush for construction, for readjustment, for high-pressure repairs, for feverish extensions. All these must be continued with increasing effort.

The return of the property comes in the very midst of this race between an ever-powering demand and an upbuilding of a system whose growth was held back by the vital needs of war.

Much progress has been made in the upbuilding of this system, but far more is still required to meet the swift growth of business; and also to give "first aid" to every other business and every other service struggling against an unprecedented demand.

Under such conditions it is beyond human power to immediately overcome the handicap which the situation imposes.

There are no people in any public or private endeavor who are working more tirelessly or strenuously for the common good than those of the telephone companies. More service must be given and it must be even more efficient. That improvement in some cases will take months. Eventually service must win the race with demand.

MACKEREL ARE SCHOOLING OFF THESE SHORES

Large schools of mackerel were reported in bay between Cape Ann and Boston yesterday by steamer City of Gloucester arriving yesterday afternoon from Boston.

Fish were reported schooling also off Half Way Rock and in Ipswich Bay.

According to the statistics of the Board of Trade there were landed at Gloucester during June 8,767,978 lbs. of fish, as against 9,437,465 pounds in the corresponding period of 1918. This does not include 2162 barrels of fresh herring, 3053 barrels salted herring, 280 quintals cured fish, 10,414 pounds fresh mackerel and 5823 barrels salted mackerel. The total fish receipts of all kinds to date is 46,630,670 pounds as against 50,733,210 pounds for the same period in 1918.

Intemperance in America.

Cardinal Gibbons, who reached his 85th birthday anniversary a few days ago, received many congratulations and was asked for a message to the American people. In reply he said his feeling was one of thanksgiving to Almighty God and to the brave American soldiers for the close of the world war and the success of our army. He referred to conditions a year ago, when the boys were still in the trenches and we had no absolute assurance as to when and how the war would end. He then reviewed briefly the coming of the news of the armistice and the effect it had on the people of the country, and added: "It is hoped that such measures will be adopted as will secure a lasting peace, and which will deter any ambitious power henceforth from disturbing the harmony of nations."

Cardinal Gibbons deplored the race riots which were in progress in Washington at the time, and which have since been duplicated and ever exceeded in Chicago, and, proceeding, said: "Alas, it is a proof that a legislative suppression of intoxicating drinks is not as it was said it would be, a panacea against all social and moral evils. There are many other kinds of intemperance—intemperance in eating, by gluttony; intemperance in speech—by slander and defamation of character; intemperance in liberty itself—by lawless license; intemperance in our insatiable search for wealth, which dries up in many hearts the foundations of benevolence and stifles the gentler feelings of sympathy for suffering humanity."

Thoughtful people will readily perceive the truth of these words. Intemperance is the great curse of this country today, and if is not confined to the use or abuse of intoxicating liquors, as many well-meaning but mistaken people believe. There is, as Cardinal Gibbons says, intemperance in eating, in speaking, in the exercise of the liberties of which we boast, and which are too often turned into lawless license, and the grossest kind of intemperance in the mad scramble for wealth.

Just how the country will be affected by the legislative suppression of the liquor business we shall know later, but there is grave reason to fear that Cardinal Gibbons is right when he predicts it will not prove a panacea against all social and moral evils. It may help, and it is to be hoped that it will, but society will not be instantly purified by this single piece of legislation. There will be many evils still to combat, chief among them being the various forms of intemperance of which Cardinal Gibbons speaks.

The country and the world are now in a state of great unrest as a result of the world war, which stirred practically all of the nations to their depths, and it will take time to get back to normal conditions and a normal state of mind. It is yet too early to tell what the effect of national prohibition will be. It remains to hope for the best and to trust that the healing processes of time will restore the mental equilibrium of mankind and enable this country and the rest of the world to slow down to a reasonable pace and be content to live and let live as intelligent beings should.

The Board of Health acted none too promptly in shutting off the water at the public watering tubs in the city to prevent the spread of glanders, the presence of which has been discovered here. The disease is a menace to the human family as well as to horses, and no action to check its spread can be too drastic.

Evidence of appreciation of the Portsmouth playground has been plentiful of late. Large numbers of children and young people are availing themselves of the privileges afforded there in a manner to demonstrate that the playground is a good investment for the city.

The Isles of Shoals appears to be popular as a place of religious conventions. Those who plan for these events have ways of locating the right places for them, and at this time of the year no mistake is made when this delightful resort is selected.

There is much interest at New Castle in the coming air service between that place and Boston. How well the line will be patronized remains to be seen, and it is to be hoped that the venture may not be attended with any serious casualties.

The lower branch of Congress is to take a recess, leaving the Senate to wrestle with the Peace Treaty and the League of Nations. The latter should feel somewhat lonesome, especially after the President gets away on his western trip.

Chicago quickly followed Washington in the matter of race rioting and more people have been killed there than was the case at the national capital. What city is in line for the next outbreak?

Short lobster men in Maine waters have been having their troubles of late. It is better to live up to the law, even if one feels at times that it isn't just what it ought to be.

NAVY YARD NOTES

Many Attend Party.

Several officers and ladies among the yard residents attended the bridge and tea party given by Miss Rosamond Thaxter and Miss Wild at Kittery Point on Thursday for the benefit of devastated France. The affair was most successful financially and the guests put in an afternoon of rare enjoyment. The ladies in charge received much praise for their undertaking and the activity shown for such a worthy cause.

Boston Doesn't Like It.

There appears to be considerable feeling among the men at the Charlestown navy yard on account of the destroyer fleet coming to Portsmouth for annual repairs and overhauling.

Nothing was said however when the U. S. S. Topeka and other ships were taken from Portsmouth yard to help keep the men employed at Charlestown. The destroyers belong here according to the latest reassignment of ships to home ports and should come along as directed.

Talks With Roosevelt

On Thursday Assistant Secretary of Navy Roosevelt told a committee representing employes of the Charlestown navy yard that he would recommend an appropriation of $100,000,000 for the continuation of work in the navy yards of the country. He said that he would urge a special message from the President on the matter of furnishing sufficient funds to carry on work now held up as a result of the action of the House.

The committee was accompanied to the White House by Congressman Fitzgerald of Boston, who made a strong plea for the navy yard workers. He pointed out to Mr. Roosevelt that it would be possible to retain many of the men in employment if the department discontinued letting contracts to private firms and required that all this work be done under government supervision.

Cancelled Game

The Beacons of Brookline are without a game for next Saturday afternoon owing to a cancellation by the Portsmouth, N. H., navy yard team.—Boston Globe.

Planning to Greet Osborne.

The prisoners at the naval prison will observe Tom Osborne day on Sunday on the return of Lieut. Commander Thomas M. Osborne from his sea duty. A procession of the men headed by the prison band will march to meet him and other features of a program will be carried out in recognition of his transfer from sea duty to the prison. The affair is under the supervision of the Prisoners' Mutual Welfare League. Lieut. Commander Osborne has been assigned to the North Dakota as Tom Brown and his work was with the several divisions of the ships' company. His last stunt was in the firerom.

MEMORIAL FOR FALLEN HEROES

Plains Association to Dedicate Same Aug. 10.

The Portsmouth Plains Improvement Association as a tribute to the memory of the twenty-four local men who made the supreme sacrifice in the World War will place a bronze Memorial tablet properly inscribed on the large boulder at the Plains and twenty four maple trees recently set out are to be dedicated to the memory of these brave men, each to be lettered with the dead hero's name. The name of Miss Evelyn Petrie, of this city who was killed while serving as an army nurse is also inscribed on the tablet and a tree dedicated to her memory.

The dedicatory exercises and unveiling of the tablet will take place on Sunday afternoon, Aug. 10, at 3.30 o'clock. The program which is being arranged will include addresses by prominent speakers and a band is to furnish music for the occasion. It is hoped a large part of our citizens will be present to assist in honoring the memory of Portsmouth's brave boys who died in the cause of righteousness.

Their names are as follows:

Arthur T. Patch, U. S. N., Hugh Conway Hill, U. S. A., George R. Durand, U. S. M. C., Sydney Pickles, U. S. A., Chester Brock, U. S. A., Michael Lynch, U. S. N., Lieut. Frank Booma, U. S. A., Lieut. TO THE PATRONS OF THE PORTSMOUTH ICE CO.

In order that we may explain our reasons and object for introducing and suggesting the use of what is called the Coupon System, in connection with the delivery of ice, we take this means of communicating to you.

We find it difficult to obtain very necessary information through the former system of doing business and find that we can obtain such information, through the use of coupons; as determination of cost, quantities and putting us in closer touch with those with whom we do business, assisting us to give what we are endeavoring to bring about, GOOD SERVICE, which is an important feature in the business.

Much waste is evident, over which neither customer, driver or the company has any control and which can only be effectively remedied by such a check as this system will give. Much time will be saved to our drivers by their not having to make change, keep record of charges, etc., which is disagreeable to them, and leads to much dissatisfaction and misunderstandings, consequently causing more detailed work at our office, which all tends to increase the cost.

This difficult phase of the ice companies' business has been pondered over from all points by a great majority of ice dealers, who agree that this is the only effective way to overcome the weakest part of the business.

We, as dealers, appeal to our valued customers to give this subject careful thought and expect that you will endeavor to co-operate with us in establishing this change of method, which we feel will eventually work out to the benefit of customer, employer and company.

A further discussion of this subject will appear at a later date, meanwhile we suggest that you ask for one of our coupon books, which are made up as follows, 500, 1000, 3000 and 5000 lbs.

PORTSMOUTH ICE COMPANY

NAVY YARD INCREASE LEAD IN PENANT RACE

Take a Game From the Southery and Now in a Commanding Position to Finish First

Sunset League Standing.

Atlantic	5	5	.727
K. of C.	6	3	.666
Southery	6	6	.500
P. A. C.	2	8	.200
Y. M. C. A.	1	11	.083

The Navy Yard drove another nail into the Sunset league penant on Thursday evening when they defeated their old rivals the Southery by a score of 8 to 1. The Navy Yard have but three more games to play and if they win two of these they will have the penant clinched, as the Atlantic and Knights of Columbus will have to win all of their games to get a tie.

The Navy Yard hit Kleffman hard in spots. Hayes in three times up got a home run a single and a double. Gannon also got two hits. They gave Sutton fine support, and he allowed only three hits.

The Navy Yard were up and Gannon punched out a single, Irvine sacrificed him to second, and Hayes walloped a home run; Cashman singled, but was nailed going to second and Fontaine struck out. Two runs.

Azbell opened with a base on balls. Porter hit to Scruton who doubled Azbell and Harris flied to C. Broderick.

In the second C. Broderick singled and stole second, Davis flied to center, S. Broderick walked, Scruton struck out, McIlvain made a wild heave to third and C. Broderick scored; Gannon singled scoring S. Broderick and Irvine flied to Poncelet. Two runs.

The Sailors were out in order, Romer on a fly to Fontaine, Kelley to Davis and Grinnell was thrown out by C. Broderick.

The Navy Yard scored two more runs in the third, Hayes singled but was thrown out stealing second; Cashman walked, Fontaine was hit, C. Broderick flied to Poncelet who made a bad throw home and Cashman scored; Davis singled and Fontaine scored; S. Broderick was hit and Scruton fanned. Two runs.

The sailors made a good bid for a score in this inning. McIlvain hit a long ball to Davis who made a fine catch; Poncelet singled and Kleffman singled; Azbell flied to C. Broderick and Porter forced Kleffman at second.

Azbell took Kleffman's place in the fourth and passed Gannon, he stold second, Irvine was out to Kelley who doubled Gannon at second; Hayes hit for two bases and Cashman walked, but Fontaine flied to McIlvaine in center, who having taken Romer's place who went to third and Flynn went behind the plate.

Harris was hit and walked; Romer raised a foul fly to Fontain who doubled Harris off first; Kelley singled but Grinnell flied to Irving.

In the fifth C. Broderick was throwp out by Grinnell and Davis by Romer; S. Broderick was hit for the second time but Scruton fanned for the third time.

The Southery got across their lone run in this inning, after McIlvain was retired by Gannon; Poncelet drew a pass and he went to third on Cashman's fumble of Flynns' grounder and he scored on a bad heave by Fontaine.

The game this evening will be the Atlantic vs. the K. C. and as it will mean that the loser virtually goes out of the pennant race here is considerable interest.

YEOMEN (F) DISCHARGED AT WASHINGTON

Washington, July 31—More than 2000 yeomen (F) and feminine Marine Corps reservists on duty here were mustered out today. Many will be employed in the Navy Department in Civil Service capacities.

The remaining girls in the navy and Marine Corps in various parts of the country and island possessions will not be released from active service before Aug. 31 under the provisions of the new naval bill.

Sec. Daniels and Maj. Gen. George Barnett reviewed a battalion of uniformed yeomen (F) and a company of girls of the Marine Corps yesterday as a part of a farewell ceremony.

Mr. Daniels praised their faithful and patriotic service. He said their enlistment had released nearly 10,000 men for active service with the fleet and with the Marines in France.

During the war the Yeomen (F) Corps reached a strength of 11,275, some of its members serving in Europe and in all other places where there were naval establishments or stations.

They served as stenographers, clerks translators, camouflage artists, finger print experts, draftsmen and recruiting agents. Most of the 300 female Marine Reservists as the Marinettes were officially styled, served at Marine Corps Headquarters in the Navy Department.

LEMON JUICE TAKES OFF TAN

Girls! Make bleaching lotion if skin is sunburned, tanned or freckled

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quarter pint of the best freckle, sunburn and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

ABENAQUI TO PLAY COUNTRY CLUB GOLF TEAM

There will be a golf match on Saturday afternoon between the Abenaqui of Rye Beach and the Portsmouth Country Club at the latter club. The Rye Beach will send up a team of at least six men and possibly ten and at the same time a handicap sweepstake will be played open to the members of both clubs.

DANCE TAX HITS WOMEN

Women attending dances must pay the same tax as men regardless of whether the price of admission charged women is less than the amount collected from men, under a new ruling just received from internal revenue officials. The order calls for the payment of this tax for April and May before the end of this month, although no official notification has been issued. This gives promoters of dances two days to pay to escape the 5 per cent penalty fixed for failure to comply with the law.

Heretofore the rule has been to collect a 10 per cent tax from every one attending a dance, regardless of what price was charged. Thus, if a man paid 50 cents, the tax was 5 cents, and if the charge to a women was 30 cents, the tax was 3 cents. Now the department says the women's tax in such a case is also 5 cents.

TWO GOOD APPOINTMENTS

Fred H. Thompson of Hampton has been re-appointed deputy game warden and this will be pleasing news to the gunners from this section of the state. Mr. Thompson had the endorsement of the Exeter Sportsmen Club, and other gunners in this section. Dr. A. C. Heffenger has been appointed a game warden for this section. He is one of the best known authorities on game in this section, especially on fox, and his kennels of fox hounds are rated about the best there is in the country.

There has been a material improvement in the game conditions in this section and the new commissioner Mr. Mott Bartlett who is familiar with local conditions having lived in this city, has signified his intention of seeing that more protection is given the honest sportsman.

BIDS ASKED FOR NEW SCHOOL HOUSE

The plans for the new school house have been completed and accepted by the joint committee and bids have been asked for the construction of the building. Bids will be opened on August 5th and the award made to the lowest bidder. J. Edgar Richardson is the architect.

The committee hope to have the school ready by winter term if the weather conditions are at all favorable.

RAILROAD MEN ASK RELIEF FROM H. C. L.

Washington, July 30—Request that Congress take some action on the high cost of living, was made to the President today by Warren S. Stone, President of railroad men, and other officers of the Brotherhood. They were received by the President.

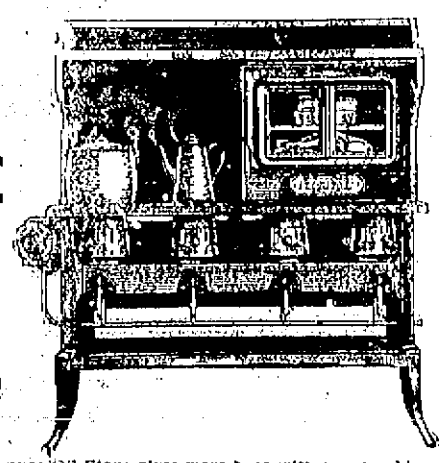

CITY HALL BEING RENOVATED

The Committee on City Lands and Buildings have made considerable improvements in City Hall. The interior has been painted and the ladies room on the second floor rebuilt and repainted. The Mayor's office has been renovated and it is a fine looking room.

BIG TRACK MEET FOR ENLISTED MEN IS HELD AT THE NAVY YARD

A naval track meet held on the station ball field at the navy yard on Thursday under the direction of Chaplain Rountree, director of athletics, proved an interesting event and attracted many spectators.

At intervals between the events the marine band played, adding to the interest of the occasion.

The program of events was as follows: 100-yd. dash; shot-put; half-mile race; running high jump; 220-yd. yard dash; tug of war; running broad jump; quarter mile race; mile relay and a baseball game between the Southery and Marine Barracks.

Entries in the events were made from men of the Southery, Marine Barracks, naval prison and U. S. S. Huntington. Awards were given the first, second and third winners, silver medals to the first, bronze to the second, and ribbons to the third winners. Cups were awarded to the team of highest points, tug of war, relay race and baseball; a gold medal to the individual making the highest points.

The following were the winners:

Individual medal for highest points—Private Wean, U. S. M. C., 17 points.

Cup—Marine Barracks (team winning highest points). The Marines also took the cup in the tug of war and relay race.

Ribbons were awarded each individual in the tug of war.

The first, second and third winners of each event were as follows:

100-yd. Dash—First, Hervey of the naval prison; second, Private Wean, U. S. M. C.; third, Geotting, U. S. M. C.

Shot-put—First, Private Wean, U. S. M. C., 39 ft. 9¼ inches; second, Larson, U. S. M. C., 35 ft. 9½ inches.

Half mile race—First, Heath, U. S. M. C., 2 min. 26 sec.; second, Reynolds, U. S. M. C.; third, Larson, U. S. M. C.

Running high jump—First, Lanestron, 5 ft. 8 in.; second, Herzey, 5 ft. 7 in.; third, Hawley, 4 ft. 11 in.

220-yd. Dash—First, Herzey, 22 sec.; second, Wean; third, Geotting.

Running broad jump—First, Lanestrom, 18 ft. 8 in.; second, Wean, 17 ft. 3 in.; third, Brownell, 17 ft. 1½ in.

Quarter-mile race—First, Heath, U. S. M. C.; second, Wean; third, Hulma, U. S. S. Huntington.

One-mile relay—Lanestrom and Wean.

The Southery won from the Marines in the ball game by a score of 8 to 0 and took the cup.

LEWIS TALKS ON CELLAR STILLS, CIDER, JAKEY

Sees Nothing to Worry About From Sale of Apple Juice and Dope.

Commissioner Lewis, who seldom is heard from by the state press, opened up with an interview at Concord regarding prohibition and judging from his statements it is evident that the father of New Hampshire's bone dry bill is not wise to everything that is going on in the state regardless of war time prohibition. During his talk to representative of a state paper, he touched drug use, cellar stills, smuggling "Jakey" and hard cider.

When questioned regarding statements from various sources that the use of drugs would increase where liquor was banished, Mr. Lewis was emphatic in his disbelief of such being true and was strongly inclined toward the opinion that prohibition tended to lessen the consumption of drugs on the ground that a majority of beginners could trace their first "dope" to a desire created while under the influence of liquor.

Speaking on the "private still," he did not think there would be any great trouble arise from this cause. In his argument he said that New Hampshire was not well situated geographically for such practices on a large scale, and if small ones were installed in cellars and other remote places they would be detected in short order from evidence given by those who were on the "inside" but who had become intoxicated and wandered into the sight of the public officials. Arrests would immediately follow, and when the offender was given his choice of a long term at hard labor or of giving the information as to where he had procured the liquor, Mr. Lewis was of the opinio nthat the latter would be invariably chosen.

When the subject of smuggling was taken up he stated that he expected that attempts would be made to smuggle something into the port of Porsmouth, but owing to a close watch being maintained he though the venture would not be successful.

The old enemy, Jamaica ginger, was the next on the bill, and in answer to queries on this subject Mr. Lewis stated that the menace had been reduced to the minimum and that where many cases of selling to confirmed users of intoxicants were found at the outset close watch had resulted in reducing the number of such sales and consequently the number of arrests for drunkenness.

The hard cider proposition was next mentioned and in this the commissioner is sure that with the same tactics employed, there will be but little trouble from this source. He frankly states that in all probability there will be thousands of barrels of cider made each fall, but he does not believe that it will be sold in any quantities for beverage purposes after it has reached the alcoholic stage for the instant that a person appears under the influence of an intoxicant, he will be treated to the same procedure as in "Jakey" cases.

LOCAL CAR OWNER IN ACCIDENT

Rochester, Aug. 1—Rochester hill Wednesday evening was the scene of considerable excitement, this being due to an automobile accident and the arrest of seven autoists by officers in charge of State Automobile Inspector William H. Knox, the charges being using their cars without dimmers.

The accident occurred near the residence of Dr. P. H. Roberts, and was said to have been due to the drivers of the two cars hugging too close to the center of the road, each car going in the opposite direction. Both cars were ditched and considerably damaged, while the occupants escaped with bruises and a bad shaking up. One car was owned by Francis Vaccarest of Manchester and the other by Andrew Farnceel of Portsmouth.

Those who appeared in police court Thursday for infringement on the auto light laws were George E. Perreault, Henry Nalthol, Nalt D. Stevens and Alfred Bouchard, Somersworth; Willie E. Gray, Milton, and Darnell Rogers and Arthur A. Brenard, Dover, all of whom were fined $5 and costs.

ANNOUNCE ENGAGEMENT.

Announcement was made yesterday of the engagement of Miss Grace Louise Tuck of Newington to Homer E. Curtis of Milford. He served in the army, and since his discharge has been working at the Shattuck shipyard at Newington, where he met his future bride.

CANNING, PRESERVING AND JELLY MAKING

Berries for preserving are now at their best, as are many other fruits also. The Acorn, having in mind the ease and comfort of the good house-wife as she prepares to "put up" the fruits of the season, and of the good-man of the house as he enjoys those fruits during the long winter months to come, has secured several cases of the well known

STAR BOTTLES

Experienced housewives have assured The Acorn that not only are they equal to any container for jellies, preserves or jams, but that their immunity from breakage is an added consideration in their favor.

Pint Bottles are but 50 the dozen

Quart Bottles cost 75c the dozen

Janette Hill's book, "Canning, Preserving and Jelly Making," is a standard book on these subjects, and of the best.

NAVY YARD WILL DO BIG JOB ON RAPPAHANNOCK

Secretary Daniels Orders Her Converted to Fleet Supply Ship.

Good news for the employes of the Portsmouth navy yard came from the navy department today in the orders from Secretary Daniels allowing the proposed work on the big transport Rappahannock to proceed.

The transport will be made over to a fleet supply ship and means one of the most extensive jobs in several years.

The department makes it known that the ship is wanted as soon as possible for service and that the necessary money will be alloted at once for material and labor with detailed instructions.

For the past month or more the Rappahannock has been tied up in fleet reserve. The officers of the Industrial Department have been busy in their efforts to retain the transport here and secure the employment for the mechanics.

WORK OF BOARD OF PUBLIC WORKS IS MUCH APPRECIATED

The Board of Public Works are entitled to a vote of thanks for causing the removal of the useless signs on Market Square and for the replacing of the proper guide boards there.

This has been the means of eliminating much confusion to drivers of motor vehicles. The city is growing and every little up to date improvement helps. The board in its work of seeing that buildings are properly numbered should receive the cooperation of every property owner. A bit of pride for your home city should be considered and every time one can do anything there should be no hesitation.

We cannot live as we did 20 years ago. The days of township have passed. We must be up and doing and help any good move made in the interest of the city by the Public Works or any other department.
